## **Medical Superintendent's Message**

**“Healing with Compassion, Guided by Tradition”**

As the Medical Superintendent of Shri Santanpal Singh Ayurveda Medical College & Hospital, I take immense pride in our institution's commitment to patient care, clinical excellence, and holistic healing. Ayurveda teaches us that health is not merely the absence of disease but the harmonious balance of body, mind, and spirit.

Our hospital strives to embody this philosophy by offering compassionate care rooted in Ayurvedic principles, while also embracing modern diagnostic and therapeutic advancements. We ensure that every patient receives treatment that is not only effective but also respectful of their individuality and cultural context.

Beyond clinical services, we emphasize the importance of training our students to become empathetic healers. They are encouraged to blend traditional wisdom with modern medical practices, ensuring that they emerge as professionals capable of addressing the diverse healthcare needs of society.

Together, we aim to create a healthcare environment that is patient-centered, ethically sound, and scientifically progressive — a true reflection of Ayurveda's timeless values in today's world.

**Dr. Vijay Mohan Gupta**

Medical Superintendent

Shri Santanpal Singh Ayurveda Medical

College & Hospital

Mirzapur, Shahjahanpur, Uttar Pradesh
